Next 300,000 gallons used per quarter - \$ 3.51 per 1,000 gallons.

- (c) **Billing.** Bills for water service are rendered quarterly and become due and payable upon issuance following the period for which service is rendered. A late payment charge of one percent (1%) per month will be added to bills not paid within twenty (20) days of issuance. This late payment charge will be applied to the total unpaid balance for utility service, including unpaid late payment charges. This late payment charge is applicable to all customers. The utility customer may be given a written notice that the bill is overdue no sooner than twenty (20) days after the bill is issued. Unless payment or satisfactory arrangement for payment is made within the next ten (10) days, service may be disconnected pursuant to Wis. Admin. Code Chapter PSC 185.

(d) **Combined Metering.**

- (1) Volumetric meter readings will be combined for billing if the utility *for its own convenience* places more than one (1) meter on a single water service lateral. Multiple meters placed for the purpose of identifying water not discharged into the sanitary sewer are *not* considered for utility convenience and shall not be combined for billing. This requirement does not preclude the utility from combining readings where metering configurations support such an approach. Meter readings from individually metered separate service laterals shall *not* be combined for billing purposes.
